Hi Brittany,

I am attaching my suggestions so far for the QAPP with track changes.

I showed you how I am having to work very hard to get my lab back up and running smoothly after Gold King and the LC/MS/MS having had several breakdowns. With this in mind, as you review my first pass on this QAPP, I would appreciate you identifying anything that you think might cause me unnecessary trouble that I ought to review. I would like to review the QAPP with fresh eyes, after you work it over.

Thanks for your help!
John
